

C.C.AUTOPART

โคมไฟส่องปากเคลื่อนที่

MD-LIGHT PL-02

Application

- Designed for dental procedures
- Portable and easy to move for flexible use in different clinical settings

Light Source

- Equipped with LED bulbs for high efficiency and long lifespan

Light Characteristics

- Provides cool light with no heat emission
- Delivers a clearly defined light field, ideal for illuminating the oral cavity precisely

Illuminance (Light Intensity)

- Light intensity of not less than 13,000–35,000 lux
- Measured at a working distance of approximately 20–70 cm from the patient's mouth

Power Switch

- Equipped with an on/off switch located on the lamp head for convenient operation

Pole and Base Construction

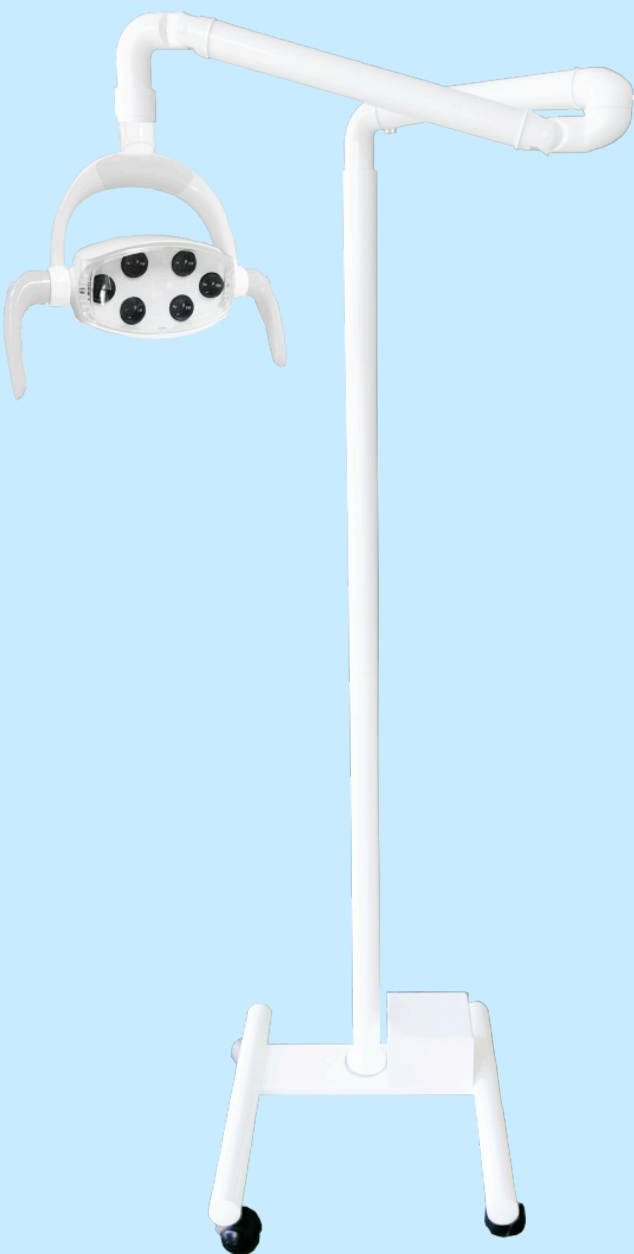

- The pole and base are made of rustproof material or coated with anti-corrosion protection
- Designed for durability and long-term use

Flexible Arm

- The flexible arm is made of rust-resistant material or anti-corrosion coated
- Allows easy adjustment of the lamp head in both vertical and horizontal directions

Power Adapter

- Comes with a 220V AC adapter
- Output voltage not less than 10 volts
